## FINE GOLF BY MISS FORD.

SUN AGAIN WINS THE PRESIDENT'S CUP AT MORRISTOWN.

It Now Becomes Her Personal Property Mrs. Phipps and Mrs. Shippen Sec ond and Thirdin a Field of Twelve-The United States Golf Association Has Ar ranged for a Women's Champtonship on the Morris County Club's Links,

There were an even dozen starters in the women's match at the Morris County Golf Club yesterday in the third competition for the Presi-dent's Cup, offered by Miss Nina Howland. The course was 14 holes, medal play. When first competed for, in October, 1894, in the first match ever played by women in this country, Miss Howland Ford won with a score of 96 strokes; last June she won the cup again in 84 and yesterday she won for the third time, her card showing 74. Miss Ford had only been playing a few weeks when she entered in the first competition, and her improvement shows clearly how fast a woman with an aptitude for the game will improve who practises regularly. Mrs. Phipps and Mrs. Shippen, who made the two next best scores, show an equal improve ment in their game.

The high scores, 117 and 112, were handed in by players who made their first drives during the past summer, the closeness of the other res revealing how well the members play who have had about a year's experience. Ford's score is eight short of the card handed in by the winner when the men played over the fourteen-hole course for the McK. Twombly Cup last fall. Both Miss Ford and Mrs. Phipps scored a 3 for the first hole, equalling the rec-ord, and a stroke ahead of the showing made by any of the men in the inter-club team match on Wednesday. This should entitle them to wear

an engle's feather in their golfing hats.
In presenting the cup to Miss Ford after the match G. G. Kip made an important announcement. It was that a Scotch player had presented to the United States Golf Association a silver trophy valued at \$1,000 as the perpet ual emblem of the women's championship, and that arrangements had been made to hold the first competition, under the management of the Morris County Golf Club, on the Morristown links, next spring. The club represented by the winner will have the custody of the cup for a r, when another competition will be held.

of fourteen holes. Only the women members of the clubs in the United States Golf Association will be allowed to compete.

Miss Ford's play yesterday was very even. She is not as long a driver as some of the others, but she is a safe player, seeking to go outside of the bunkers rather than to loft over them, and having good direction on her strokes through the green. But for indifferent putting she would have done the sixth and twelfth holes in 8 each. Playing for the tenth, usually a 4. Miss Ford's drive sent the ball against a tree, but she holed out in 5. She was mearly in the bunker going to the eleventh hole, giving a poor lie to the ball, but a well-directed mashle stroke made matters even again, but a stroke was lost, making 6 for the hole, which had been made on the first round in one less. Mrs. Phippe's first drive was the best of the day, an easy lofting stroke sending the ball dead on the green, and she holed out in three by an easy put. The drive was about in three by an easy put. The drive was about in three days, and she ford's score of three for the same hole on the second round was made by a hoderate drive, followed by a brassie approach that reached the creen, when a ten-loot put gained her the hole.

Mrs. Shippen's poor luck with her drives for the two holes at the start coat her the start coat her the start coat her the vantage.

gained her the hole.

Mrs. Shippen's poor inck with her drives for the two holes at the start cost her the vantage, her card showing an 8 for each spolling what would otherwise have been an excellent score. Her second round was done in 39. The play of the other competitors was marred by irregularity, but each made holes in good form, as the scores show.

There was just a touch of winter in the air, which inade the tweed and cloth golfing suits, which were generally worn, as comfortable as they were becoming. It was fine golf weather, and the greens were in the best of condition. The summary follows: Miss Howland Ford...... 5 5 4 7 5 6 5-37 74

## A GREAT DAY AT MEADOW BROOK.

The Sands-Rutherford Golf Match and a Club Hunt-Golf Cames Elsewhere. C. E. Sands, the young St. Andrew's player,

in the amateur championships at Newport, and Winthrop Rutherford of the Newport Golf Club will meet in a golf match to-day on the Meadow Brook links, each contestant backing himself for \$1,000. Thirty-six holes will be played, four rounds of the nine-hole course. Eighteen holes will be played in the morning, beginning at 10 o'clock, and the same number in the afternoon.

Great interest is taken in the match in golf-

ing circles, for the men are believed to be about equal in skill. Samuel Tucker, the St. Andrew's green keeper, will act as caddie and adviser to Sands, and O. W. Bird, Chairman of the Golf Committee of the Meadow Brook Club, will act in the same capacity for Rutherford. The umpire will be Theodore A. Havemeyer, President of the United States Golf Association. Archibald Rogers of the Shinnecock Hills Golf Club will be referee for Winthrop Rutherford, and Arthur L. Livermore of the St. Andrew's Golf Club will be referee for Charles E. Sands.

Aside from golf the day will be an important one in Meadow Brook annals, for the first invitation hunt under the new master. Ralph N. Ellis, will bring a host of hard riders from the other clubs to join the Meadow Brook field. The Rockaway Hunt, Rene La Montagne, master, has cancelled its fixture for to-day, in order to hunt the Hempstead country. Robert E. Tod, the master, will lead a large delegation of members of the Westchester Hunt, and the Richmond County, the Essex, the Monmouth County, the Genesee Valley, and the Radnor Hunt Clubs and other clubs at more distant points will be represented.

Luncheon will be served in the club house at 1 o'clock, the pack being put on the scent in the meadows pear by at 3:15. The run will be across the Hempstead Plains and the Barnum estate to Plain Edge, thence to Bellmore and Wantagh, a course of about twelve miles. It is expected that 200 riders will be in the 'cross-country run. Among the vehicles that will be driven after the hunting party over the highways will be the drags of August Belmont, Miss May Hird, Kinsley Magoun, Mrs. J. E. Smith Haddon, Mrs. Adolph Ladenburg, and Thomas Hitchcock, Jr.

To avoid a conflict with the competition for the McK. Twombly Cup at the Morris County Golf Club, the golf match at the Haltusrol Golf Club, the Beekman, Mrs. John A. Stewart, Jr., Mrs. W. E. Philadelphia Cricketers May Go to Europe. PHILADELPHIA, Oct. 18 .- There exists a strong probability that a team of local cricketers, unde the title of the Gentlemen of Philadelphia, will visit England next spring for the purpose of playing a series of matches with some of the strong teams on the other side.

Strong leams on the other side.

The matter was considered to-day at a meeting of the Executive Committee of the Associated Cricket Clubs of Philadelphia, Mr. Cassatt presiding, and after a lengthy discussion it was referred to a special committee, which will meet to morrow and report to the general committee on Friday next. The project is viewed with favor by all thuse present at to-day's meeting, and there is very little doubt but that it will be put into execution. The committee in whose hands the matter now rests consists of G. S. Patterson, E. S. Buckley, Jr., J. B. Colohai, Jr., it. II. Rellly, and W. T. G. Bristo. No team has gone abread from this country since 1880, and if one goes next year it will be the third in vasion of England by Philadelphia cricketers, the list team having gone there in 1883.

MEETING OF THE JOCKEY CLUB.

With her head checked up a little higher than before, and some of her boots removed, the honest, constant trotter just came back to life, and, laying back in the ruck until Jube, in a heart-breaking brush that was maintained for more than half a mile, carried Little Nancy beyond the limit of her speed and endurance and into the air, came on with a thrilling rush and best Jube through the homestretch.

Water Belle, a delicate-looking little mare of remarkably rich breeding, gave the talent an upset by defeating the favorite, Henry S., and winning the 2:40 race in straight heats. The winner was bred by Charles E. Ford of Brooklyn, and her dam, Niagara, by Smuggler, 2:13%, is out of Watersprite, the daughter of Helmont and Waterwitch. Her record was 2:42 when she started yesterday.

Gillette, 2:114, and Black Ide, 2:17, trotted an exhibition mile to pole in 2:24% driven by their owner, E. T. Bedford, to a pneumatic-tired wagon.

James N. Wilson and M. McDonald, the owners of the fast mare Capitola Fisk, who trotted second to Hickorywood in the 2:29 class on Thursday, sold her yesterday to S. De Beauvais of Paris, France, for \$1.700. She has no record, but Wilson says she can trot in 2:17 or better. M. De Beauvais will send her abroad along with Honeywood. 2:1444, and some other American trotters that he has recently purchased. The Additional Control of the Starter of Teach,

Starter of the Starter nile dash, proved to be a surprise, the rank outsider, Nahesa, winning easily, the favorite, Preston, being third. The winner was formerly Jessie H. She was sold by William Evans a few days ago to George Leavitt for J. Malcoim Forbes of Hoston, who owns the crack two-year-old Bingen. Many think that Nahesa will prove to be a second Bingen.

The Blue Grass Stake for the 2:10 trotters was a fairly easy thing for the favorite Ledy Wilton, who captured it in straight heats, but had to trot very fast to do it. The Wilson Stake for 2:20 pacers was a sensational affair, and was not finished until nearly dark. Rachel, the favorite, won the first two heats; then, by superior driving. Geers landed Morelia a winner of the third ahd fourth heats. Hussey, who had saved up Bert Oliver, then came on and won the next three heats and the race, It was a heavy betting affair, and a great deal of money changed hands on the result. Lord Dunravan, who was seen by a representative of the United Press, said he had nothing more to say in regard to the recent races for the America's Cup than had already appeared in the newspapers as coming from him. He had not as yet decided what he would do with the Valkyrie. However, he thought she would be useful for trial purposes with any vessel that might be selected to contest for the cup. Still, he did not know what his associates in the ownership of the boat might decide to do. Lord Dunraven positively declined to talk upon the subject of the ill feeling which is reported to exist between himself and the New York Yacht Club's committee, or in regard to the rumors prevailing in Cowes respecting alleged unfairness to the Valkyrie when the marks were laid down for the courses to be sailed over. He also refused to speak of his future plans. He was not aware of the desire to entertain him at a banquet in Cardiff, and would not say whether he woold accept. He was going to his home, Dunraven Castle, Glamorganshire, Wales, in a few days, he said, but for the present he is staying at the headquarters of the Hoyal Yacht Squadron.

Launch of the Mongoose.

The new launch built for John C. De La Vergne of Orienta was launched at Port Morris yesterday after Orienta was launched at Port Morris yesterday afternoon, and, courtary to the time-honored superstition
regarding Friday, the launch and trial trip were a
complete success. The yacht is propelled by a new
naphtha engine invented by Feedor Hirsch. The machinery is entirely concealed, being covered by a casing which projects about eight or nine inches above
the cabin floor, and the engine is regulated and the
speed controlled by a lever in the pilot house. The
yacht was christened Mongoose by Miss De La Vergne
and is enrolled in the Larchmont Yacht Club and the
Corinthian Fleet. Immediately after launching the
Mongoose satled for Larchmont.

They Take Steps to Advance the College Prestige on Field and Water. An important mass meeting of the students of

the freshman class of Columbia College was held yesterday afternoon, at which the constitution of the union was read to them and explained. The meeting was well attended, and from the interest shown by the students it ap pears that they intend to do what they can to foster athletics at the college and raise her to her primary standing on field and water. W. T. Lawson, '82, the President of the union, was to have presided, but on account of business

was unable to attend. G. T. Kirby, '97 L. took his place in the chair and read the constitution. He explained it in full and made a few additional remarks, in which he urged the students to support and maintain the college in every branch of athletics. Pier was then elected froshman representative to the union.

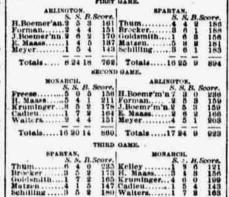

J. H. Prentice, '97. Captain of the '96 'varsity crew, subsequently spoke of the vital importance of supporting rowing at the college, and called for the class to make a good showing in her candidates for the freshmen crew in the spring. W. H. Fearing, '98, Captain of the spring. W. H. Fearing, '98, Captain of the freshman football team, spoke next on track athletics, and finally Beatty, '98, manager of the freshman football team summed up in favor of the gridiron sport.

The freshman football team will play no game to-day, as most of the men have entered the fall games, which take place in the afternoon. They will have a short practice in the morning, however, and will also elect their permanent Captain. Oct. 30 has been selected as the date for the Columbia-Yaic freshman football games at New Haven. his place in the chair and read the constitution

Probable Strength of the Cornell Eleven ITHACA, N. Y., Oct. 18.-In the games so far played by the Cornell eleven with teams of minor colleges the showing has been somewhat of a disappointment to the friends of the eleven, yet with this was engendered a feeling of hopefulness, because of the marked improvement in each game played. In past years the Cornell eleven has been trained for an early season, most of her important games being played in October, and in the second week of this month the team was usually playing fast football. This season the system of training and coaching has been entirely changed. With games scheduled with Harvard, Princeton, and Pennsylvania, the system has been to train the men for these games, allowing the miner games to take care of themselves.

PERNELL FOR FULL BACK.

Until to-day little attention has been paid to eam work, Coach Newell devoting his energic to picking out the weak spots in the line, and endeavoring to find a full back to fill Billy Ohl's place. To find the right men for the line of ourse required changes during practice every few minutes, and team work was well-nigh im-possible. Schoch, a green man, has received considerable personal attention from Coach Newell for both centre and guard, but in the ame last Saturday with Western Reserve University Schoch showed up weakly as guard, and showed too much hesitation at various times to showed too much hesitation at various times to be useful on the 'varsity this season. It is be lieved now that a solution to the full-back problem has been found. The surest punter of the eleven is Tommy Fennel, who played centre last year, and Newell has about decided to play him at full back. He will make a strong line bucker, can tackle sure and hard, and is fleet of foot and promises to make full back the strongest instead of the weakest position on the team.

fleet of foot and promises to make full back the strongest instead of the weakest position on the team.

Of course this is a severe loss to the line, but it is hoped that Schoch, with considerable more individual attention, can be developed for centre rush. He is a heady player, and weighs about 190 pounds. At guard Cornell will be weak on the right side, because Rogers is rather light. Last year he played brilliantly at tackle, but at guard is not strong because of his weight. Freeborn will play left gnard, but is at present on the sick list with a little touch of malaris. The positions of tackle will be well filled by Sweetland of last year's Union team on the left and Tommy Hall, a veteran, on the right. Ends there are in abundance. At left end Joe Beacham will stand guard, but he is at present a little indisposed, and his place is being taken by McKeever, who gives great promise.

For the position of right end there is a very interesting struggle between Tauasig, the midget end of last year, and Lyles, a new man, Capt. Wyckoff will, of course, play quarter, but is a little overtrained, and is taking a rest this week. He has a good substitute in Miles. For backs, Saussy is developing finely, and, with Starbuck, Cornell will have a good pair.

Coach Newell is now developing a strong interference, and, where a week ago the varsity had hard work to make a touch down against the scrub, it can now do so at will. The game with Lafayette to-morrow will afford an excellent chance to size up the eleven's possibilities with Haryard the following Saturday. The work of the eleven this afternoon, however, was very encouraging.
